Classified Index to Persons in the Library of Congress Classification Schedules	790

FOREWORD

Most cataloging staff in libraries have talked about the lack of adequate indexing for Library of Congress classification schedules for the past three decades, but little has been done to provide a solution to the problem. The need to have a comprehensive one-source index to the complete set of Library of Congress classification schedules has long existed. This combined index meets such a necessity and, additionally, provides a data base which can be easily up-dated and revised when and as often as needed.

Librarians in all types and sizes of libraries should find this compilation a useful source for aid in determining classification numbers, tracing Library of Congress current classification practices, and approaching subjects from an alternative point to subject headings. This work is not a "how to do it" handbook, but is a guide to and thorough Library of Congress classification.

The personal name indexes will increase the accessibility of all types of library collections which use the Library of Congress Classification system, as well as be invaluable as the first sources to consult when cataloging a literary work or biography. These indexes will replace lengthy searches in the National Union Catalog and provide much useful information for libraries not accepting the P Z 3 and 4 numbers assigned by LC. The compilation of names, pseudonyms, and class numbers provides direct reference accessibility to literary and biographical works in all languages and time periods.

The author has seen a need and done something about it. The success of her efforts will depend on the use made of this work by catalogers and reference librarians in the field and their demand for updated and revised editions in the future.

Dale K. Carrison
Director of Libraries
Mankato State College

March, 1975

Schedules provide accessability to classification numbers representing persons in the Library of Congress classification system. Sources for these numbers include the schedules, the *Additions and Changes* through December of 1973, *The Library of Congress Catalog, Books: Subjects 1965-69*, and microfilmed portions of the Library of Congress shelflist. (See page xxv for exact list of sources.)

In Index One, authors of literary works and their classification numbers are given in alphabetical order.

In Index Two, numbers for philosophers, musicians, historical figures, educators, scientists, etc., have been added to the "author numbers" from Index One. These biographical numbers, in alphabetical order, include multiple numbers for those people who have made major contributions in more than one field. Albert Schweitzer, for example, is represented by seven numbers: CT 1098.S45 (Biography), BV 3625.G3S25-45 (Missionary), ML 416.S33 (Musician), B 3329.S5 (Philosopher), R 507 S3 (Physician), BX 4827.S35 (Theologian), and Z8797.75 (Bibliography).

Index Three contains all material from Index Two arranged by classification number with headings for classes, sub-groups, and time periods when appropriate.

Index users should note that since the sorting for all indexes was done by a computer, "St." will not sort with "Saint" and "De La Mare" will come before "Dean," i.e., each group of letters is treated as a separate word by the computer.

Diacritical marks were transcribed according to the following table:¹

- ä in German, Finnish, Hungarian, Turkish, and Scandinavian languages is written AE.
- ö in German, Finnish, Hungarian, Turkish, and Scandinavian languages is written OE.
- ü in German, Finnish, Hungarian, Turkish, and Scandinavian languages is written UE.

When two identical vowels come together in a word only the first is transcribed (e.g., Bööök is transcribed as Boeok).

ø in Danish and Norwegian is written OE.

å in Swedish, Norwegian, and Finnish is written AA. When AA comes together in one word the modification rule is disregarded (e.g., Baath is transcribed as BAATH).

ð with crossbar is written D.

þ Icelandic thorn is written TH.

Each entry for Indexes One, Two, and Three contains a name and the classification number associated with it. An entry also contains notes relating to pseudonyms, full name, name in religion, or variant form of a name, when that information was available. Cross-references are included for pseudonyms and variant forms of names.

If a specific table is listed in the schedules for a name, reference to that table is made after the name in the entry. The tables for literature schedules are numbered with roman numerals, with reference in the indexes made by using arabic numerals. Only the first number and the table reference are given for those names having a range of numbers.

When the schedules contain notes or information relating to the use of a number, such as a variation from a standard table, or restrictions on the use of a number, an asterisk [*] is printed following the name in the entry. This warns the user to consult the schedules, including the *Additions and Changes*, before using the number.

The source of each entry is given by a symbol enclosed in square brackets following the name. These symbols are [Δ] for LC shelflist, [S] for *Books: Subjects*, [□] for *Additions and Changes*. If no source is given, the entry came from the basic schedules. As indicated above, all entries with asterisks come from the basic schedules or from the *Additions and Changes*.

A special problem exists with numbers for Greek and Roman authors. Many of these authors are listed in the "PA" schedules without numbers, but in correct alphabetical sequence. For each of these unnumbered authors, the last listed classification number was used and an asterisk added to the number. "PA 3873*" therefore represents an author without a number of his own, but one that follows the author with the assigned number PA 3873.

The user of these indexes should be cautioned on the use of numbers from *Books: Subjects*. It became obvious

¹University of California, San Diego Serials System, Computerized Serials System Series, Vol. 1, Issue 2 (The LARC Association, 1973), p. C-8, C-9.

in many cases that a table had been used for works about some people, yet no mention of such use was found in the schedules or the *Additions and Changes*. In all such cases, only the last digit of the number is in doubt, because only that digit ever seemed to vary. These problems can only be resolved through access to the entire Library of Congress shelflist.

Some authors may purposely have two or more literature numbers. The obvious examples would be those with a PZ number and a PR, PS, PQ, or other P number. A less common occurrence is the author with numbers in Swedish literature and in English literature, or in French literature and in one of the areas of French literature outside of France.

Others accidentally have two numbers, or share a number with another author. These very rare shelflisting errors were identified when indexing from the LC shelflist microfilm. Numbers were recorded as found.

Names taken from *Books: Subjects* and from the LC shelflist are given in their correct bibliographic form; other names should be verified before use of the name as a main or added entry.

Tables are printed on pages xvii to xxxvi. These tables include all revisions through March, 1975. Note that while certain tables are applied only to multiple-number, or multiple-Cutter-number authors, several tables exist which are to be applied as needed for authors or philosophers with only a single number or a single Cutter number. Therefore, a special table is provided for each author listed in Index One.

Index Four, the *Geographical Name Index* and Index Five, the *Subject Keyword Index*, are described fully in the introductions to those indexes.

While these indexes were designed to aid beginning catalogers, catalogers in small libraries, and Dewey catalogers faced with reclassification to LC, they are not intended to substitute for knowledge of the LC system and schedules. The user should not try to classify from these indexes alone. There may be tables to be applied to the given number; scope notes to be considered; a range of numbers to be subdivided; or numbers from more than one schedule given for a name.

Index Three should have special value to those libraries not accepting the PZ 3 and PZ 4 classification. If an alternate number for an author is not to be found in Index One, the cataloger has in Index Three all the author numbers LC has used for the major twentieth century literature subjects. The LC classification

librarian whether as guides to a library's own classification in the Library of Congress system or in verifying interlibrary loan requests. Index Five will be of great value in preparing SDI or current awareness searches and in collection evaluation, since it groups together all the classifications from all the schedules relating to a single topic.

These computer produced indexes were designed to be easily updated by computer. The computer used was the Mankato State College Regional Computer System, which contains a Univac 1106 operating under the Exec 8/262K system. The equipment includes an F-1782 drum, a 1782 drum, four Uniservo VI C tape drives, and 1004 batch terminals.

There are 122,072 entries in Index One, and 45,520 entries in Indexes Two and Three. 45,520 entries were in Index Four and 124,051 entries were present in Index Five.

In Indexes Two and Three, 107,353 entries were from the LC shelflist, 10,206 from *Books: Subjects*, 24,060 from the schedules and the *Additions and Changes*.

Error corrections, comments, and suggestions should be sent to Mrs. Nancy B. Olson, Memorial Library, Mankato State College, Mankato, Minnesota. In the next edition an attempt will be made to correct those errors that are found. Other suggestions for improvement or comments from users would be appreciated.

Nan

TABLES OF SUBDIVISIONS

Tables I to 5 to be applied as indicated for individual philosophers.

Tables I to IX^b, XII to be applied as indicated for individual authors.

Tables X to XI, XII^a to be applied as needed to individual works.

Tables XX to XXXI, Da, Ea to be applied as indicated in the classification of Oriental, Slavic, and minor European literature. Note section in each for individual authors.

*Each table includes revisions through List 177, March, 1975.

Table 1 (50 nos.)*	Table 2 (9 nos.)	Table 3 (4 or 5 nos.)**	Philosophers with 4, 5, 9 or 50 numbers.
0	0	0 or 5	Periodicals.
1	1	.A1	Dictionaries, lexicons, etc.
	2	.A16	Collected works.
3	.A2	.A2	Original (vernacular) texts. By date.
4	.A3	.A3	Editions with commentary. By editor.
5	.A5	.A5	Partial editions, selections, etc.
			Translations.
			Including translations with original texts.
6	.A7	.A7	Greek.
7	.A8	.A8	Latin.
8	.E5	.E5	English.
9	.F5	.F5	French.
10	.G5	.G5	German.
11	.I5	.I5	Italian.
12	.S5	.S5	Spanish and Portuguese
13.A-Z	.A9-Z	.A9-Z	Other.
15-44	3	1 or 6	Separate works.
			Alphabetically, by title; if not otherwise provided for.
			Subarranged:
			Works with five numbers:
		0 or 5	Original texts. By date.
		1 6	Editions with commentary. By editor.
		2 7	Selections, paraphrases, etc.
		3 8	Translations (with or without notes).
			By language, A-Z.
		4 9	Commentaries, interpretation, and criticism (with or without translation)
			Works with three numbers:
		(1)	Original texts. By date.
		(2)	Translations (with or without notes). By language A-Z.
		(3)	Commentaries, interpretation, and criticism (with or without translations.)
			Works with one number:
		.A3	Original texts. By date.
		.A4-Z5	Translations (with or without notes). By Language.
		.Z7	Commentaries, interpretation and criticism (with or without translations).
			Works with Cutter number:
			Subarranged like item (4), Table 4.
45	4	2 7	Spurious and apocryphal works.
46	5		Indexes, outlines, paraphrases, etc.
47	6	3 8	General works.
			Biography, popular accounts, etc.
48	7		Criticism and interpretation

Table 4

Philosophers with 1 number.

	(1).A3 (2).A35 (3).A4 (4).A5-Z6 .Z69 (5).Z7 .A1-19	Collected works. Original texts. By date. Partial editions, selections, etc. By editor. Translations. By language, A-Z. Separate works. Subarranged: (1) Original texts. By date. (2) Translations (with or without notes). Subarranged either by language, A-Z or by the following scheme: .1 Greek. .2 Latin. .3 English. .4 French. .5 German. .6 Italian. .7 Spanish and Portuguese. .8 Dutch. .9 Other, A-Z. (3) Commentaries, interpretation, and criticism (with or without translations). Dictionaries, indexes, concordances, etc. General works. Biography, criticism, etc. Societies, periodicals, etc.
--	--	---

Table 5: Philosophers with Cutter number.

The subarranged as presented in Table 4 is followed, using successive Cutter numbers in place of .A3, .A35, .A4, .A5-Z6, and .Z7. For example, the Cutter number .B4 would be developed thus:

2 Cutter nos.	3 Cutter nos.	4 Cutter nos.	5 Cutter nos.	
*.xA1-3	(1) .xA1-5	(1)	(1) .B4 (2) .B41	Collected works. Original texts. By date. Partial editions, selections, etc. By editor or date.
.xA4-Z7	(1) .xA6-Z (2) .AZ7	(2) (3) A-Z7	(3) .B42 (4) .B43A-Z7	Translations, By language, A-Z. Separate works, A-Z. Subarranged like item (4), Table 4.
.xZ8	(2) .Z8	(3) Z8	(4) .B43Z8	Dictionaries, indexes, concordances, etc.
	(3)	(4)	(5) .B44	General works.
A1-19	(3) A1-19	(4) A1-19	(5) .B44A1-19	Biography, criticism, etc. Societies, periodicals, etc.

I (98 nos.)	II (49 nos.)		Authors with ninety-eight or forty-nine numbers.																																
0	0	or 50	Collected works. Original editions, and reprints. By date. To 1500: A00-99. 1500-1599: B00-B99. 1600-1699: C00-C99. 1700-1799: D00-D99. 1800-1899: E00-E99. 1900-1999: F00-F99.
